

THE ART-JOURNAL

ILLUSTRATED CATALOGUE OF THE GREAT EXHIBITION OF 1851.

This interesting and valuable volume is now ready for delivery at the price of One Guinea, elegantly bound. It contains of 600 pages, and contains engravings of nearly 2,000 works of art and architecture, together with a table of contents, a history of the Exhibition (illustrated by large etchings and interior view), and essays by several learned professors on the leading objects of the Exhibition.

Early application for this volume is advisable, as it cannot be reprinted, and there is no doubt of its largely increasing in value. The volume will be supplied by all booksellers in town or country.

Publisher: GEORGE VINTAGE, 23, Paternoster-row.

HOW TO SEE THE EXHIBITION.

By W. BLANCHARD JERROLD.

"We have not met with a more intelligent, well-arranged, or agreeable guide to the Exhibition than is contained in this simple little volume. A thorough mastery of the whole subject is displayed; the details are taken to the coarsest confusion of the visitor; and every reader will be enabled at once to find the objects described, and to obtain a correct account of its characteristics."

—The amount of accurate knowledge here compressed into two small volumes is astonishing; and this knowledge is not of an encyclopaedic character, such as might be easily compiled from books, but fresh and recent on all subjects, more especially in the departments of science. The most instructive guide to the Exhibition while it is open—we have no doubt that this Handbook will become hereafter one of the most popular manuals of the history of the great gathering of the century.—*Illustrated*

"Useful to the Exhibition, and agreeable afterwards as a remembrance of what was seen in the great year of 1851."—*Standard*

SPICER, BROTHERS, Wholesale Stationers, Wm. CLAYES and SON, Printers.

23, New Bridge street, Blackfriars; at Hyde-park; at all Booksellers in Town and Country; and at the Railway Stations.

VOL. II. HUNT'S HANDBOOK

to the EXHIBITION OFFICIAL CATALOGUE; an Esplanatory Guide to the Natural Productions and Manufactures of the Great Exhibition of the Industry of All Nations, 1851. Edited by ROBERT HUNT, Keeper of Mining Records. This work is so arranged that every reader will be enabled at once to find the objects described, and to obtain a correct account of its characteristics.

INSTRUCTIONS for CLEANING, REPAIRING, and RETOUCHING OIL PAINTINGS; with Remarks on the Distribution of Works of Art in Galleries and Rooms. By HENRY MERRITT.

WILSON and NEWTON, 23, Rathbone-place.

A MOST SPLENDID WORK ON RICHLY PAINTED AND STAINED GLASS WINDOWS. DIVERS WORKS OF EARLY MASTERS

Christian Decoration.

WITH AN INTRODUCTION CONTAINING THE BIOGRAPHY AND CONTEMPORANEOUS ASSOCIATIONS IN ART OF ALBERT DURER.

ILLUSTRATED BY SEVENTY-FIVE SPLENDID ENGRAVINGS BY LE KEUX AND OTHERS, Many beautifully illuminated and coloured under the superintendence of MR. OWEN JONES, Representing the celebrated Painted and Stained Glass at Gouda, in Holland, the Painted Ceilings and Decorations of the Church of St. Jacques, at Liege; with some English Examples of Painted and Stained Glass of an earlier date, &c.

EDITED BY JOHN WEALE.

Two magnificent Vols. Imperial folio. Published at 10s. 10s.; reduced to 5s. 10s. Elegantly half-bound morocco, gilt leaves.

"The many favourable notices of this splendid book would fill a volume; the following are a few extracts—

"This work is one of those rare productions of art which at once excite admiration and defy criticism. It is not only the most splendid work of the kind that has yet been attempted in England, but it is, we believe, perfectly unique, and opens a new province in the region of decorative art to the student and amateur. The windows at Gouda are unanimously allowed, by the best judges and able connoisseurs, to be the perfection of that mode of painting, and of no surpassable beauty in regard to execution and colouring."

"This is, in every sense of the word, a splendid book. That part of the volume devoted to an account of Albert Durer and his works is particularly interesting, and is the fullest and best notice of him we possess. Many magnificent specimens of painted glass are given, the plates measuring twenty inches in height, and richly coloured in imitation of the original. Certainly more splendid examples of glass-painting could not be found. To conclude—the book is in every way worthy of patronage, and a side-spring to the long list of princely works produced by private spirit in this country."—*Art-Journal*

AN INQUIRY INTO THE HISTORY OF Ancient Glass Painting, ESPECIALLY IN ENGLAND; WITH PRACTICAL HINTS ON GLASS PAINTING; Also Observations on the Present State of the Art; Suggestions for its Application to Particular Purposes, and as to the best Means for its Advancement, &c.

BY AN AMATEUR. ILLUSTRATED BY SEVENTY-FIVE PLATES.

2 Vols. 8vo. Reduced to 18s.—Published at 17. 10s. In extra gilt cloth.

"A succinct description of this in conveying any adequate notion of the elaborate research that must have been required for the compilation of these volumes, of the value of the suggestions that they embody, or of the archaeological knowledge which the Author has brought to bear on the subject of his compilation. Some of the plates are in outline, but many are coloured, with a refinement of touch and brilliancy of effect altogether unusual, and all are as accurate as to be available, if necessary, for working models, from having been drawn to scale."—*Morning Post*

"The present work supplies a great deficiency, and treats of the subject in such a way as is likely to be useful and interesting at once to the antiquary, the amateur, and the practical artist."

"The plates have been evidently most carefully selected, with a view to show the progress of the art from the thirteenth to the sixteenth century, and in execution and getting up are inferior to none which have hitherto appeared."—*Quarterly*

G. WILLIS, GREAT PIAZZA, COVENT GARDEN.

THE ARCHITECTURAL QUARTERLY REVIEW.

Advertisement for the October Number should be sent before the 3rd instant. Contents of last Number, including the Press, and prospectus may be had at the Publisher's.

GEORGE BELL, 108, Fleet street near St. Dunstan's Church.

Reduction of price.

HAND-RAILING—THE ORTHOGONAL SYSTEM OF HAND-RAILING, with practical Illustrations of the Construction of Railings.

The above system, the subject of a prize medal of the Society of Arts, forms the most complete treatise of hand-railing published.

Price, 10s. 6d. or 12s. 6d. by post.

SIMPSON, MARSHALL, and CO., or, by order, of any Bookseller.

STAINING DEAL TO IMITATE ALL KINDS OF WOODS.

It requires no staining, and will stand the exposure to the weather. Price 4s. per gallon. Varnishes for Wood, Iron, Brass, and other metals. S. JAMES-STREET, Oxford street.

STEPHENS'S ORIGINAL DYES, for STAINING COMMON DEAL TO IMITATE OAK, WALNUT, or SATINWOOD colour.

For specimens of the effects of these dyes, the public are referred to the WOODWORK of the GREAT EXHIBITION, and particularly the ENTRANCE PORCH, which were coloured with the stains invented and manufactured by HENRY STEPHENS, of 34, Stamford street, Blackfriars-road, who supplied to the workmen 4th stain and varnish, and who was the 3rd person to introduce and call the attention of the public to this means of colouring wood, so as to bring forth the ornamental effect of the natural grain, and thereby save the expense of artificial imitation. Preserved and sold by HENRY STEPHENS, 34, Stamford street, Blackfriars-road.

THE METALLIC PAINT, produced by the PATENT ALKALI COMPANY, has been extensively used for several years on firm buildings, iron bridges, roofs, and railings, shipping, &c. and is universally admitted that it covers a greater surface than any other pigment, and stands far better on wood, iron, Aachen lime, and Roman cement, than the ordinary paint.

Price, 10s. 6d. per ton; 10s. 6d. per cwt. per ton. Company's Office, 1, New Broad street, London.

JOHN A. WERT, Secretary.

EVANS'S MINERAL OXIDE PAINTS.

Offer, 8, Philpot-lane, London.

Green	10s. per Cwt.
Lead Colour	10s. "
Brown or Drab	10s. "
Black	10s. "
Dark Brown	10s. "
Yellow for Turquoise	10s. "

Package of 1 Cwt. and upwards not charged.

These preparations of the Mineral Oxide Paints will be found more durable, and at the same time more economical than any other paint.

They are proof against atmospheric action, acids, and salt water, of which the following testimonials are sufficient evidence.

"8, Billiter-square, 14, April, 1851.

"The result of the trial of your Mineral Oxide Paint on the Boats manufactured by us for the service of the Honourable Commission of the Trinity House, has been very satisfactory, both as to the quality and the durability of the Paints, and the economy of cost.

"You are at liberty to make use of this testimonial in your favour."

"We are, Gentlemen, your obedient Servants."

(Signed) "BROWN, LENOX, and CO."

"4, White Court, and 4, Kingsland-road, London."

"We have used your paint on the various gas works which we have constructed during the last seven years and have no hesitation in stating it to be the best and most durable covering for iron."

"We shall continue to use and recommend it as heretofore."

"We are, Sir, yours obediently."

"WERTWOOD and WRIGHTS."

Other testimonials may be had on application.

CLASS II.—CHEMICAL AND PHARMACEUTICAL PRODUCTS.

DAMP WALLS.—NEW ELASTIC PAINT.

An efficient remedy inside or out; will dry in a few hours, and may be immediately reapplied after it is desired.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, durability, and permanence. READY FOR USE; will stand any climate, and are well calculated for exportation. White, stone, and lead, 8s. 10s. and 12s. 6d. per gallon.

PATENT LIQUID CEMENT, READY FOR USE, on the fronts of houses, only one-eighth the cost of oil paint; for beauty pre-eminently giving the appearance of fine-cut stone. In casks of 1 cwt., 2 cwt., and 3 cwt., at 8s., 12s., and 15s. each. Casks returnable.

G. BELL and Co., Steam Mills, 2, Wellington-street, Cornhill-street, London.

PURE WHITE ZINC PAINT.—Manufactured from the White Zinc Paint Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, sulphurated hydrogen, or any of the gases, and preserves its original colour where white-lead paint will not stand.

Also the strongest and most durable of iron work, sold wholesale by JOHN WARRER and SONS, 8, Crutcher, Jewin-street, London.

PURE PATENT WHITE ZINC PAINT.

From the White Zinc Paint Company. This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous qualities, and is unaffected by sea water, sulphurated hydrogen, or any gases; besides, it preserves its original colour, which White Lead Paint does not. White Zinc Paint causes none of those ravages, invariably experienced by white lead, upon the human frame; neither painters' colic, nor rashes, &c. &c., to which dangerous complaints the workmen, who manufacture and use it, are subject, and to which persons who inhabit newly-painted apartments are also liable. A special article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against its use, because, when adulterated, it becomes a very inferior paint, instead of the original colour, which White Lead Paint does not. White Zinc Paint causes none of those ravages, invariably experienced by white lead, upon the human frame; neither painters' colic, nor rashes, &c. &c., to which dangerous complaints the workmen, who manufacture and use it, are subject, and to which persons who inhabit newly-painted apartments are also liable. A special article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against its use, because, when adulterated, it becomes a very inferior paint, instead of the original colour, which White Lead Paint does not.

For further particulars and prospectus, apply to Mr. H. P. CHAMBERLAIN, General Agent for England and Scotland, at the Company's Office, 15, Manchester-buildings, Westminster-bridge, and for supply of material and prices, at Messrs. CHAS. DEVAUX and SONS, 62, King William-street, City.

HUBBUCK'S PATENT WHITE ZINC PAINT.

This elegant white, the favourite pigment of the ancients, has been used by artists through successive generations, and is still known to the members of the Royal Academy under the old name of Permanent White.

Three years since the proprietors placed their manufacture on a large scale, and offered it at a price to compete with White Lead.

The successful introduction of this paint, and its confessed superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from glass ore, contain sulphur, lead, arsenic, and other deleterious materials, which injure to health, debilitate in body, and reflecting the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties, and is as healthy in the manufacture, healthful in use, and as faithful to the painter as the most carefully prepared paint.

As a guard to the painter against the substitution of the inferior paint, each cask is stamped

"HUBBUCK, LONDON PATENT."

and if the cask has not been so marked, the reason is obvious. A Circular with full particulars may be had of THOMAS HUBBUCK and SONS, Colour Manufacturers, opposite the London Dock.
